

Description

Metal Mate 16 x 1.2 x 1m Galvanised Steel Round Tube is crafted from galvanised steel with a uniformly applied silver finish, offering a precise round form ideal for technical projects. It serves trade professionals who require reliable dimensions and structural consistency for accurate assemblies and secure fittings. The tube's robust manufacture ensures longevity and dependable performance, allowing users to benefit from a straightforward, well-engineered solution in their everyday technical applications.

Features

- High strength galvanised steel construction providing enduring support
- Smooth silver finish optimises professional project results
- Round tubing design enables precise and efficient installations
- Suitable dimensions for a wide variety of fabrication tasks
- Metal Mate branding assures dependable quality and performance
- Engineered construction streamlines assembly and installation processes
- Versatile design for integration into diverse technical projects
- Precise dimensions support efficient planning and project management
