

Description

Metal Mate 19 x 1.2 x 1m Galvanised Steel Round Tube is a galvanised steel tube with a round cross-section and a silver finish designed for accurate fabrication and assembly in technical projects. It provides reliable alignment and secure joint construction, aiding professionals in achieving precise measurements and efficient installations. Its robust build supports clear-cut, dependable performance in structural applications and equipment setups.

Features

- Galvanised steel construction for robust tube performance
- Precision round cross-section supports stable assembly
- Silver finish provides clean professional appearance
- Consistent dimensions enhance design accuracy
- Quality material ensures extended service life
- Smooth surface finish eases cleaning after installation
- Engineered to meet strict technical specifications
- Durable construction preserves structural integrity over time

Product Code: 10801

General

Product Type Round Tube

Appearance

Product Shape Round

Product Colour Silver

Construction

Product Material 1 Galvanised Steel
