

Description

Metal Mate 25.4 x 1.2 x 1m Galvanised Steel Round Tube is a robust length of round, galvanised steel designed for professional use in industrial and trade applications. It offers consistent dimensions and a uniform silver finish, making it a practical choice for structural supports, frameworks, and general construction projects. Its precision manufacturing ensures predictable performance, providing engineers and constructors with reliable material for varied technical applications.

Features

- Robust galvanised steel construction for enhanced longevity
- Precision engineered round tube profile guarantees reliable performance
- Standard 25.4 x 1.2 x 1m size for varied projects
- Silver finish enhances visual appeal and corrosion resistance
- Engineered for stability and precise dimensional accuracy
- Straight unobstructed design improves installation simplicity
- Metal Mate build quality supports reliable engineering performance
- Versatile design adaptable for multiple practical applications

Product Code: 10802

General

Product Type Round Tube

Appearance

Product Shape Round

Product Colour Silver

Construction

Product Material 1 Galvanised Steel

Dimensions

Product Thickness (mm)	1.2
Product Height (mm)	25.4
Product Width (mm)	25.4
Product Length (mm)	1000
