

Description

Metal Mate 31.8 x 1.2 x 1m Galvanised Steel Round Tube is a reliable construction component crafted from galvanised steel with a silver finish. Its precise round profile and trusted design offer durable support for various engineering projects. This product is engineered to meet the practical needs of trade professionals, providing consistent performance and ease of integration into technical applications, ensuring a dependable solution for assembly and structural configurations.

Features

- Made from galvanised steel for lasting durability
- Smooth silver finish for improved visual clarity
- Precision round shape enhances predictable load distribution
- Engineered to strict tolerances for reliable performance
- Robust design supports secure structural applications
- Lightweight design simplifies handling during installations
- Dimensions precisely set for consistent structural integration
- Metal Mate quality ensures dependable material properties and aesthetics

Product Code: 10803

General

Product Type Round Tube

Appearance

Product Shape Round

Product Colour Silver

Construction

Product Material 1 Galvanised Steel

Dimensions

Product Thickness (mm) 1.2

Product Height (mm) 31.8

Product Width (mm) 31.8

Product Length (mm) 1000
