

Description

Metal Mate 31.8 x 1.2 x 3m Galvanised Steel Round Tube is a silver round tube constructed from galvanised steel. It is designed for professionals who require a reliable and durable component for mechanical assemblies and structural supports. With its precise dimensions and robust build, it offers value in applications that demand consistent performance and technical accuracy, ensuring dependable operation in various trade and fabrication tasks.

Features

- Constructed from galvanised steel for robust performance
- Round tube shape supports even load distribution
- Consistent silver finish maintains visual clarity
- Precision dimensions ensure accurate engineering work
- Reliable 31.8 x 1.2 x 3m specification for repeatable results
- Engineered round shape for uniform stress management
- Metal Mate brand guarantees trusted product quality
- Ideal for fabrication and construction applications

Product Code: 10814

General

Product Type Round Tube

Appearance

Product Shape Round

Product Colour Silver

Construction

Product Material 1 Galvanised Steel

Dimensions

Product Thickness (mm)	1.2
Product Height (mm)	31.8
Product Width (mm)	31.8
Product Length (mm)	3000
