

Description

Metal Mate 20 x 20 x 1.6mm x 1m Galvanised Steel Square Tube is a box section designed for precise structural and architectural applications. Constructed from galvanised steel, it provides durability, corrosion resistance and consistent performance, making it suitable for detailed framework assembly. Its uniform square shape ensures accurate alignment, ease of assembly and dependable support for various load-bearing structures, supporting the needs of trade professionals in planning and executing technical projects.

Features

- Accurate 20x20 profile with 1.6mm wall thickness
- Durable galvanised steel ensures lasting silver appearance
- Uniform square cross-section for reliable structural support
- Consistent quality with precise dimensions in every section
- Engineered for accurate alignment in fabrication and assembly
- Corrosion resistance extends lifespan in challenging conditions
- Clean design offers simplicity for efficient assembly
- Trusted Metal Mate brand delivers reliable performance and durability
