

Description

Metal Mate 25 x 25 x 1.6mm x 1m Galvanised Steel Square Tube is a box section manufactured from galvanised steel with a uniform square profile and a silver finish. It is designed to deliver precise structural performance for assembly and fabrication tasks, providing trade professionals with consistent, reliable support. The product is engineered to enhance structural integrity and facilitate seamless integration with various building components.

Features

- Constructed from galvanised steel for long service life
- Precise square profile for reliable joint connections
- Smooth silver finish supports easy surface inspection
- Consistent 25 x 25 mm profile with 1.6mm wall thickness
- Standard 1m length for flexible design applications
- Precision manufacturing delivers consistent performance and fit
- Engineered for straightforward integration with compatible components
- Reliable galvanised finish offers enduring surface protection
