

Description

Metal Mate 30 x 30 x 1.6mm x 1m Galvanised Steel Square Tube is manufactured using high-quality galvanised steel, ensuring consistent performance for precise applications. The square profile and exact dimensions support reliable structural assemblies and efficient fabrications. It provides technical advantages with a robust build that meets the demands of trade professionals. This product offers dependable construction details that facilitate accurate installations and contribute to overall project efficiency.

Features

- Galvanised steel offers long lasting corrosion resistance
- Square shape provides stability and uniform structural support
- Precise dimensions maintain consistent project specifications
- Silver finish enhances aesthetic of built structures
- Box section design ensures easy integration in systems
- Metal Mate engineered for durability in demanding tasks
- Sturdy construction supports precision alignment for technical installations
- Available in standard size for versatile system designs

Product Code: 11202

General

Product Type Box Sections

Appearance

Product Shape Square

Product Colour Silver

Construction

Product Material 1 Galvanised Steel

Dimensions

Product Thickness (mm)	1.6
Product Height (mm)	30
Product Width (mm)	30
Product Length (mm)	1000
