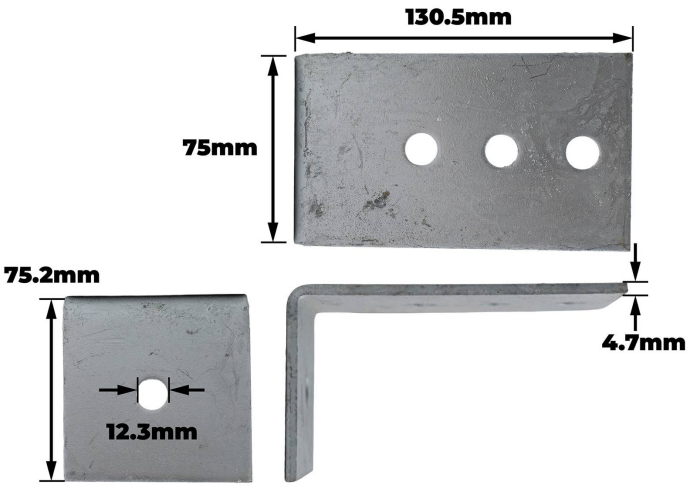
Carinya 130 x 75mm Hot Dipped Galvanised Reinforcing Bracket

BRACKET DIMENSIONS



Description

Carinya 130 x 75mm Hot Dipped Galvanised Reinforcing Bracket is a steel angle bracket engineered for providing secure reinforcement in construction and trade projects. Its robust steel composition and hot dipped galvanised finish ensure durability and stability, making it suitable for precise mounting and strengthening tasks. The bracket offers a practical design with clear specifications that facilitate efficient installation and integration into various systems, serving the needs of professionals seeking reliable and technically sound solutions.

Features

- Robust steel construction ensures long lasting strength
- Hot dipped galvanised surface provides reliable corrosion resistance
- Economical design offers practical reinforcement support
- Angle bracket design facilitates secure joint connections
- Precision engineered for accuracy in component placement
- Easy to install with clear, defined mounting points
- Provides secure reinforcement points for component stability
- Engineered dimensions ensure component alignment and balance

Product Code: SAG21

Dimensions

Product Length (mm)	130.5
Product Width (mm)	75.2
Product Height (mm)	75
Product Thickness (mm)	4.7
Diameter of Fixing Holes (mm)	12.3

Weights

Load Capacity (kg)	350.0

Appearance

Product Colour	Hot Dipped Galvanised

Construction

Product Material 1	Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
