

Description

Metal Mate 40 x 40 x 1.6mm x 1m Galvanised Steel Square Tube is a galvanised steel box section designed for practical applications in fabrication and structural support. Its square profile and uniform 40 x 40 dimensions in a silver finish offer consistent performance for supporting frameworks and equipment installations. This product provides reliable strength and precision, assisting trade professionals in achieving efficient assembly and robust design across a range of projects.

Features

- Constructed from galvanised steel for enhanced rust resistance
- Square profile simplifies measurement, cutting and assembly
- Precision dimensions ensure consistent fit in framing applications
- High strength design supports secure structural reinforcement
- Polished silver finish provides a neat professional appearance
- 1m length offers versatile integration into various projects
- Compact design facilitates handling and space-efficient storage
- Engineered for precise installation with minimal adjustments
