

Description

Metal Mate 25 x 25 x 1.6mm x 3m Galvanised Steel Square Tube is a precisely engineered square section tube constructed from galvanised steel. It offers uniform dimensions for reliable framework assemblies and general construction tasks in professional settings. Its consistent geometry and silver finish contribute to a straightforward installation process and enhanced structural stability. The product provides professionals with precise load distribution and dependable performance in applications requiring accurate tolerances and robust material properties.

Features

- Galvanised steel provides long lasting durability
- Precision square tube ensures reliable construction and assembly
- Silver finish offers a professional, clean appearance
- Compact 25 x 25mm dimensions suit various design applications
- 1.6mm wall thickness reinforces robust structural integrity
- 3m length enables customised fabrication processes
- Durable fabrication supports secure, precise joining techniques
- High quality manufacturing yields precise profiles with accurate dimensions

Product Code: 11212
