

Description

Metal Mate 30 x 30 x 1.6mm x 3m Galvanised Steel Square Tube is a box section crafted from galvanised steel to deliver durability and precise dimensions for fabricators. Its square profile ensures uniform performance in assembling support frameworks and mounting systems, offering technical reliability for trade professionals. The galvanised finish provides long-lasting corrosion resistance, making it a practical solution for projects requiring dependable and straightforward construction components.

Features

- High-quality galvanised steel guarantees long-lasting structural support
- Square profile ensures precise assembly and alignment
- Smooth silver finish offers a clean, uniform appearance
- Dimensions: 30x30x1.6mm with 3m overall length
- Engineered for straightforward integration into fabrications
- Reinforced design supports reliable performance in structural projects
- Uniform galvanisation delivers corrosion-resistant strength
- Ideal for constructing robust frameworks and support systems

Product Code: 11213

General

Product Type Box Sections
