

Description

Metal Mate 25 x 25 x 3mm x 1m Galvanised Steel Angle. This L-shaped equal angle is constructed from galvanised steel with a silver finish, offering a sturdy solution for precise framing, support, and reinforcement within construction projects. Its dimensions and build quality provide reliable accuracy and consistent performance. The product is valued by trade professionals for its functional design and ease of integration into various assembly and framing applications.

Features

- Galvanised steel construction ensures robust corrosion resistance
- L-shaped equal angle design supports precise structure alignment
- Silver finish provides a neat modern appearance
- Consistent 25 x 25 x 3mm profile maintains dimensional accuracy
- 1m standard length offers ease of handling and application
- Engineered by Metal Mate for consistent performance and reliability
- Durable design supports various structural and fabrication projects
- High quality galvanisation extends the product lifespan

Product Code: 13200

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Galvanised Steel

Dimensions

Product Thickness (mm)	3
Product Height (mm)	25.7
Product Width (mm)	25.7
Product Length (mm)	1000
