Description

Metal Mate 38 x 38 x 1.8mm x 0.9m Galvanised Heavy Duty Slotted Steel Angle is a robust L-shaped slotted angle produced in silver galvanised steel. It provides a precise, pre-slotted framework ideal for fabrication, bracing and support within various trade services. Engineered for accuracy, the product facilitates secure alignment in construction and assembly operations. Its uniform slotted design assists professionals in achieving reliable connections and efficient load distribution, making it a practical and value-driven component in diverse technical projects.

Features

- Constructed from galvanised steel for added longevity
- L-shaped design ensures precise mounting and alignment
- Pre-cut slots enable flexible positioning of fixings
- Heavy duty structure provides robust performance during use
- Silver finish offers a clean professional appearance
- 38 x 38 mm profile suits varied installation requirements
- 1.8mm thickness delivers a sturdy yet manageable profile
- 0.9m length enables versatile use without excessive cutting
