

Description

Metal Mate Black Slotted Angle Starter Pack offers a robust, black slotted angle designed for precision assembly and accurate alignment of components. It is engineered to support structural modifications and secure joining in fabrication tasks. Industrial and trade professionals find value in its technical design and straightforward assembly, which enable consistent outcomes and improved efficiency. The product's construction lends itself to precise measurements and reliable performance in various component integration scenarios.

Features

- Robust metal construction ensures reliable performance
- Precision slots enable versatile fixing solutions
- Consistent black finish for neat appearance
- Integrated design simplifies installation on work sites
- Engineered to support secure mounting configurations
- Customisable dimensions for flexible configuration options
- Precisely machined for accurate component alignment
- Efficient design reduces installation time on site

Product Code: 13700

General

Product Type Slotted Angle

Appearance

Product Colour Black

Dimensions

Product Thickness (mm)	N/A
Product Height (mm)	Nut:5.9
	Bolt:15.6
	Corner plate:0.81
	Feet:15.6
Product Width (mm)	Nut:12.6
	Bolt:12.7
	Corner plate:76
	Feet:36
Product Length (mm)	Nut:12.6
	Bolt:12.7
	Corner plate:76
	Feet:35
