

Description

Metal Mate 6.3mm x 1m Galvanised Steel Round Solid is a robust galvanised steel round bar designed for precision fabrication and structural assemblies. The silver finish and accurate dimensions provide trade professionals with a reliable material for machining, reinforcement, and custom engineering projects. Its technical design enhances ease of use and consistency in performance across a variety of construction and repair applications, ensuring efficient integration into larger systems.

Features

- Solid round bar engineered from galvanised steel
- Precision fabrication ensures dimensional accuracy
- Metal Mate quality design for reliable structural support
- Exact dimensions at 6.3mm diameter by 1m length
- Robust galvanised steel resists corrosion for lasting performance
- Uniform round profile simplifies fabrication and installation
- Engineered to precise tolerances for reliable project outcomes
- Enhances structural integrity across varied metal fabrication applications

Product Code: 14200

General

Product Type	Solid Round Bars
Appearance	
Product Shape	Round
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
--------------------	------------------

Dimensions

Product Thickness (mm)	3
Product Height (mm)	6.3
Product Width (mm)	6.3
Product Length (mm)	1000
