

Description

Metal Mate 10mm x 1m Galvanised Steel Round Solid is a robust solid round bar constructed from galvanised steel, offering reliable durability and corrosion resistance for technical applications. Its uniform round profile supports precise measurements and structural stability during project execution for trade professionals. The bar's consistent dimensions and secure finish provide dependable performance, ensuring ease of use during fabrication and construction works.

Features

- Robust galvanised steel material ensures long-lasting performance
- Precise round shape supports uniform applications
- Smooth silver finish provides clear visual assessment
- 10mm diameter round bar with 1m uniform length
- Designed with uniform cross section along full length
- Bright silver finish enables quick visual assessment
- Galvanisation reduces risk of surface corrosion
- Versatile round bars support diverse practical engineering projects

Product Code: 14201

General

Product Type	Solid Round Bars
Appearance	
Product Shape	Round
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
