

Description

Metal Mate 12mm x 1m Galvanised Steel Round Solid is a purpose-built solid round bar designed for precise technical applications in trade and industrial projects.

Constructed from galvanised steel, it offers a consistent round profile and a reliable silver finish, ensuring uniform performance in fabrication and assembly. Its robust build supports accurate machining and custom construction tasks, providing a dependable solution for professionals seeking quality and technical compatibility in their projects.

Features

- Made from durable galvanised steel for dependable performance
- Solid round design ensures uniform strength and stability
- 12mm diameter and 1m length for diverse applications
- Smooth silver finish for improved aesthetics and easy handling
- Engineered for consistent dimensional accuracy and reliability
- Simple, straightforward design minimises installation time
- Corrosion resistant galvanisation extends service life
- Trusted Metal Mate quality supports critical project requirements

Product Code: 14202

General

Product Type Solid Round Bars

Appearance

Product Shape Round

Product Colour Silver

Construction

Product Material 1 Galvanised Steel
