

Description

Metal Mate 10mm x 3m Galvanised Steel Round Solid is a robust solid round bar designed for a range of practical applications. Manufactured from galvanised steel, it offers a uniform round shape and a silver finish that enhances corrosion resistance. Its precise dimensions and consistent quality benefit trade professionals requiring reliable performance and ease of integration in projects. The product’s construction provides dependable stability and technical advantages in various professional settings.

Features

- Robust galvanised steel ensures long-lasting structural integrity
- Solid round design provides uniform load distribution
- Precision dimensions support reliable engineering applications
- Smooth silver finish enhances both aesthetic and practical value
- Standard 10mm diameter with 3m length offers versatile use
- Fabricated under strict quality controls for dependable performance
- Engineered for precise fits in diverse assembly requirements
- Reliable material and finish boost overall project efficiency

Product Code: 14212

General

Product Type	Solid Round Bars
Appearance	
Product Shape	Round
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
