

Description

Metal Mate 25 x 3mm x 2m Galvanised Steel Flat Bar is produced from galvanised steel with a silver finish and flat strip design. It has standard dimensions and reliable construction for precise fabrication tasks. Designed to meet trade professionals' layout needs, the flat bar offers accurate and consistent performance for assembly, construction and maintenance. Its robust build ensures durability while supporting effective and precise work in various technical applications.

Features

- High-quality galvanised steel construction for long-lasting durability
- Flat strip design ensures easy and precise alignment
- Uniform silver finish adds professional appearance and corrosion resistance
- Robust galvanised steel offers reliable load support
- Consistent flat bars maintain structural integrity during use
- Metal Mate product crafted for trusted performance and quality
- Easy to install design allows versatile installation options
- Accurate dimensions ensure a precise fit for every application
