

Description

Metal Mate 50 x 3mm x 2m Galvanised Steel Flat Bar is a silver flat strip crafted from galvanised steel for use in precise cutting and customised fabrication applications. Its consistent dimensions and corrosion resistance ensure predictable performance during assembly and structural support tasks. Trade professionals value its robust build and ease of integration into various construction projects, where dependable strength and refined engineering provide practical advantages.

Features

- Constructed from galvanised steel for enhanced rust resistance
- Flat strip shape ensures consistent load distribution
- Silver finish offers clear visual identification and appearance
- 2000mm length provides flexibility for various project requirements
- Suitable for structural and fabrication applications within metalwork
- Engineered for durability with accurate dimensional tolerances
- Long-lasting galvanised surface reduces maintenance and improves longevity
- Designed for ease of use in mechanical and assembly tasks

Product Code: 16224

General

Product Type Flat Bars

Appearance

Product Shape Flat Strip

Product Colour Silver

Construction

Product Material 1 Galvanised Steel
