

Description

Metal Mate 1500 x 634mm Galvanised Mini Ripple Iron Cladding is a robust flat cladding system crafted from galvanised steel and finished in a silver tone. Its ripple design enhances rigidity and provides a stable surface for attachment and applications in construction projects. The product is engineered for practical installation and maintenance, offering effective structural support and a clean aesthetic that meets the needs of trade professionals seeking reliable and efficient cladding solutions.

Features

- Flat ripple design for efficient cladding installation
- Constructed from durable galvanised steel panels
- Uniform silver finish offers consistent aesthetic appeal
- Enhances structural integrity for long-lasting facade
- Robust fabrication ensures reliable performance
- Easy-to-install configuration reduces worksite time
- Engineered for consistent load distribution
- Designed for versatile cladding and decorative applications

Product Code: 16500

General

Product Type	Ripple Sheets
Appearance	
Product Shape	Flat
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
