

Description

Metal Mate 1800 x 634mm Mini Ripple Iron Sheet Cladding is a precise cladding solution engineered from galvanised steel to provide a consistent, durable façade finish. The flat silver ripple sheets offer reliable structural support and ease of installation for technical applications. They are designed specifically to meet the practical needs of trade professionals, ensuring effective performance in projects that require accurate dimensions and robust material quality.

Features

- Galvanised steel construction enhances durability and structural performance
- Flat ripple design provides a neat and consistent appearance
- Silver finish offers a professional and modern aesthetic
- Precision engineering ensures reliable installation and performance
- Robust material suitable for diverse cladding applications
- Oversized dimensions provide extensive coverage and design flexibility
- Corrosion resistant coating extends the longevity of the sheets
- Suitable cladding with an eye for both function and form

Product Code: 16501

General

Product Type	Ripple Sheets
Appearance	
Product Shape	Flat
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
