

Description

Metal Mate 2400 x 634mm Mini Ripple Iron Sheet Cladding is a flat ripple sheet manufactured from galvanised steel with a silver finish. It provides a durable cladding solution that supports efficient installation and maintenance. Its design optimises performance for structural applications, offering consistent visual appeal and reliable protection. The product is engineered to meet the practical needs of trade professionals who require a robust, technically sound material for construction projects.

Features

- Galvanised steel construction for superior durability
- Ripple profile enhances strength with uniform pattern
- Flat shape eases accurate installation on surfaces
- Silver finish offers modern and clean visual appeal
- Compact dimensions facilitate efficient handling and transport
- Engineered for consistent performance in varied applications
- Precise measurements ensure reliable fit in cladding projects
- Metal Mate quality backed by proven technical expertise

Product Code: 16503

General

Product Type	Ripple Sheets
Appearance	
Product Shape	Flat
Product Colour	Silver

Construction

Product Material 1	Galvanised Steel
