

Description

Proval P1 Disposable Respirator Face Mask is a disposable protective mask constructed from polypropylene, melt-blown material and cotton. It features a three-ply design, adjustable nose bridge and head loop for a secure fit and consistent protection. Designed for maintenance, gardening, cleaning, drilling, sawing, sanding, woodwork and personal use, it offers a micron effectiveness level of 0.0001 mm and 80% efficiency, along with a three-year shelf life and reliable dust and dirt resistance.

Features

- Triple layer polypropylene melt-blown cotton construction
- Breathable design ensures comfortable prolonged wear
- Three-year shelf life maintains reliable performance
- Adjustable nose bridge enhances mask fit
- Micron filtration accurate to 0.0001 mm
- Staple free build reduces skin irritation
- 80% efficiency captures airborne particles
- Head loop design ensures secure mask retention

Product Code: 30121

Specifications

Breathable	Yes
Food Safe/Clean Room Compatible	No
Disposable	Yes
Water Resistant	No
Waterproof	No
Dust/Dirt Resistant	Yes
Fibreglass Free	Yes
Ear Loops	Single
Head Loop	Yes
Ply Level	3 Ply
Efficiency Level	80%
Micron Effectiveness Level	0.0001 mm
Adjustable Nose Bridge	Yes
Built in Valve	No

Standards

Food Safe (HACCP Certified)	No
