

Description

Proval Blue AB Wipes are a roll dispenser wipe constructed from polyester and viscose with a blue colour scheme. They are solvent resistant, low lint and highly absorbent, making them a reliable option for food processing and preparation, pharmaceutical and medical, surface preparation, hospitality, general cleaning, childcare centres, aged care and food manufacturing. The product provides practical, technical cleaning advantages for professionals who require dependable performance.

Features

- Resilient polyester and viscose fabric for prolonged use
- Engineered solvent resistant wipes for cleaning food processing surfaces
- Roll dispenser design offers steady and convenient wipe access
- Low lint properties maintain cleanliness during surface preparation
- Highly absorbent material quickly soaks spills and residues
- Reusable wipes reduce waste in high-demand cleaning tasks
- Blue colour aids visual differentiation of cleaning areas
- Ideal for food and beverage preparation setups and more
