

Description

Metal Mate 300 x 600 x 2mm Aluminium Tread Plate provides a reliable, flat aluminium tread plate that optimises slip resistance while supporting durability and long-lasting performance. Manufactured in silver aluminium, it is designed for practical applications, offering consistent quality and ease of installation in various settings. The tread pattern enhances traction and stability while maintaining a neat, uniform appearance that meets the needs of trade professionals.

Features

- Aluminium design offers reliable strength and durability
- Tread plate design improves traction and safety
- High-quality aluminium withstands varied weather conditions
- Flat design provides versatile installation options
- Precision manufacturing produces consistent dimensions and finish
- Large dimensions support extensive load distribution
- 2mm thickness provides robust stability under load
- Silver finish offers a modern aesthetic appearance

Product Code: 5021

General
