

Description

Metal Mate 2400 x 600 x 2mm Tread Plate is a flat, precision-engineered aluminium tread plate with a silver finish. It is designed for applications that require a durable and consistent surface for walkways, platforms, or equipment components. The product offers steady technical performance and ease of maintenance, making it a valuable choice for trade professionals seeking reliable and high-quality structural solutions in their projects.

Features

- Fabricated in high-quality aluminium for reliable durability
- Flat silver tread plate provides textured surface for secure footing
- Engineered precision dimensions at 2400 x 600 x 2mm
- Sturdy aluminium plate supports varied process applications
- Silver finish enhances visual clarity and clean aesthetic
- Precision machining supports accurate edge to edge consistency
- Uniform surface supports repeatable installation without adjustments
- Engineered for precise alignment in modular design projects

Product Code: 5026
