

Description

Metal Mate 10 x 3mm x 1m Aluminium Flat Bar is a durable, precisely engineered flat strip crafted from aluminium with a silver finish. It is designed for tasks requiring reliable structural support and precise measurements. The flat bar offers a practical solution for fabricators and trade professionals seeking efficient component integration and dependable performance. Built with attention to engineering detail, it enhances assembly procedures with consistent quality and technical advantages.

Features

- High-quality aluminium composition ensures durable flat bar construction
- Precisely cut 10 x 3mm dimensions available in silver finish
- Engineered flat strip with consistent thickness and sharp edge
- Corrosion-resistant aluminium suitable for long service life
- Uniform surface finish ensures reliable handling and precision fitting
- Manufactured by Metal Mate with robust technical design
- Enhanced flat bar shape supports secure mounting and alignment
- Neat silver finish provides a professional look and clarity
