

Description

Metal Mate 20 x 1.6mm x 3m Aluminium Round Tube is engineered for precise construction and fabrication applications in various professional trades. Crafted from high-quality aluminium with a silver finish, this round tube delivers a balance of durability and light weight for accurate assembly. Its superior resistance to corrosion, along with its dimensional stability, provides reliable performance and consistent results for projects requiring technical precision and efficient integration.

Features

- Aluminium alloy construction provides durability and lightweight handling
- Precision engineered round profile ensures exact dimensions
- Polished silver finish offers a professional appearance
- 20 x 1.6mm specification meets precise fabrication requirements
- 3 metre length supports versatile custom fabrications
- Smooth tube surface facilitates reliable joining methods
- Consistent wall thickness guarantees uniform performance
- Quality aluminium supports dependable structural connections

Product Code: 5505

General

Product Type                      Round Tube

Appearance

Product Shape                    Round

Product Colour                   Silver

Construction

Product Material 1               Aluminium

Dimensions

Product Thickness (mm)                      1.6

Product Height (mm)                            20

Product Width (mm)                            20

Product Length (mm)                           3000
