

Description

Metal Mate 50 x 30 x 2mm x 3m Rectangle Aluminium Angle is a precision-engineered component crafted in aluminium with a silver finish and a rectangular shape. Its defined dimensions support reliable fabrication and frame assembly, offering a lightweight yet robust construction. The product is well-suited to efficient structural applications and practical installations, providing trade professionals with consistent performance and ease of integration during various building projects.

Features

- Precision engineered rectangle aluminium tube
- Aluminium construction ensures durability and lightweight design
- Factory finished silver coating enhances visual appeal
- Rectangular profile delivers consistent symmetry and stability
- Metal Mate standard quality optimises performance in diverse projects
- Simple installation due to precise dimensions and form
- Robust aluminium offers long lasting strength and resistance
- Versatile dimensions suited for various structural applications

Product Code: 5985

General

Product Type Rectangle Tubes

Appearance

Product Shape Rectangle

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	2
Product Height (mm)	50
Product Width (mm)	30
Product Length (mm)	3000
