

Description

Metal Mate 20 x 12 x 1.4mm x 3m Aluminium Unequal Angle is a precision-engineered aluminium L-shaped component designed for reliable support and framing tasks. Constructed from durable aluminium, it offers consistent performance for structural and repair applications. Suitable for trade professionals, the component is light yet robust, ensuring accurate alignment and efficient load distribution. Its uniform silver finish provides clear visual quality for various assembly and reinforcement tasks.

Features

- Robust aluminium construction for long-lasting durability
- L-shaped design supports precise assembly and frame integration
- Smooth silver finish improves corrosion resistance and aesthetics
- Accurate dimensions suit varied fabrication and support applications
- Crafted for custom metalwork and reliable structural performance
- Engineered unequal angles assist in accurate component alignment
- Quality profile simplifies design and metal fabrication tasks
- Optimised sizing enables easy adaptation in numerous projects

Product Code: 6000

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.4

Product Height (mm) 20

Product Width (mm) 12

Product Length (mm) 3000
