

Description

Metal Mate 25 x 20 x 1.6mm x 3m Aluminium Unequal Angle is a precisely engineered L-shaped aluminium profile designed for reliable support in fabrication and construction projects. The silver finish and robust build ensure secure fittings and ease of assembly, contributing to efficient work processes. Its design facilitates accurate alignment and durable performance in applications requiring precise metal components for construction and trade projects.

Features

- High-grade aluminium construction ensures lightweight durable performance
- Unequal angle design offers versatile structural support
- Precision dimensions 25 x 20 x 1.6mm by 3m
- L-shaped profile for efficient right-angle assembly
- Silver finish delivers a clean professional appearance
- Engineered for precision fabrication and reliable performance
- Ideal for structural joints and reinforcement applications
- Metal Mate quality guarantees trusted, precise fabrication every time

Product Code: 6001

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 25

Product Width (mm) 20

Product Length (mm) 3000
