

Description

Metal Mate 25 x 12 x 1.6mm x 3m Aluminium Unequal Angle is produced from aluminium with a silver finish and features an L-shaped, unequal design. It is engineered for use in structural assemblies, support frameworks and general reinforcement tasks. The product offers a reliable, lightweight solution with efficient installation properties, supporting precision and stability in various trade projects while maintaining a practical and technically sound design.

Features

- High quality aluminium ensures robust performance
- L-shaped design for versatile mounting solutions
- Silver finish offers consistent visual and surface uniformity
- Precise unequal angles support varied structural applications
- Engineered for dimensional accuracy and straight alignment
- Manufactured in consistent sizes for reliable integration
- Constructed using standard technical dimensions for compatibility
- Stable support profile ideal for structural reinforcement applications

Product Code: 6002

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 25

Product Width (mm) 12

Product Length (mm) 3000
