

Description

Metal Mate 32 x 20 x 1.4mm x 3m Aluminium Unequal Angle is a silver, L-shaped profile made from aluminium, designed to offer a sturdy element for fabrication and precise assembly tasks. Its measured dimensions and finish assist trade professionals in constructing reliable frameworks and supportive structures. The component delivers consistent performance and technical accuracy for applications requiring a dependable metal interface in various construction scenarios.

Features

- Aluminium construction provides strong structural support
- L-shaped design offers clear mounting surfaces
- Unequal angles increase framing adaptability in assemblies
- Accurate dimensions enable precise component integration
- Smooth silver finish provides a professional look
- 3 metre length supports extended structural spans
- Engineered for durability and reliable performance
- Compatible with standard hardware for effortless installation

Product Code: 6004

General

Product Type	Unequal Angles
Product Shape	L-Shaped
Product Colour	Silver

Construction

Product Material 1	Aluminium
--------------------	-----------

Dimensions

Product Thickness (mm)	1.4
Product Height (mm)	32
Product Width (mm)	20
Product Length (mm)	3000
