

Description

Metal Mate 32 x 25 x 3.0mm x 3m Aluminium Unequal Angle is an aluminium L-shaped section designed for structural support in fabrication, construction and joining applications. It offers precise, unequal angles to enhance the strength and durability of joints while streamlining assembly processes for trade professionals. The product's consistent quality and silver finish support secure, reliable installations and provide versatile integration with a broad range of fabricated products.

Features

- Constructed from high-quality aluminium for lasting performance
- L-shaped unequal angle for versatile structural applications
- Precision dimensions ensure accurate fit in engineering projects
- Robust silver finish delivers reliable appearance against wear
- 32 x 25 x 3.0mm dimensions suit many applications
- Three metre length supports extended spans in construction
- Engineered for strength and dimensional accuracy in tough assemblies
- Reliable performance enhances productivity in load-bearing installations

Product Code: 6005

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	3
Product Height (mm)	32
Product Width (mm)	25
Product Length (mm)	3000
