

Description

Metal Mate 40 x 12 x 1.6mm x 3m Aluminium Unequal Angle is a silver, L-shaped metal profile designed for precision framing and support assemblies. Manufactured in aluminium, it offers a robust yet lightweight solution that enhances structural alignments in diverse fabrication projects. The uneven configuration provides technical adaptability for creating secure component junctions. Trade professionals may find its engineering simplicity and practical functionality beneficial for accurate assembly tasks.

Features

- Premium aluminium alloy construction delivers strong build
- Unequal L shaped design supports diverse assembly configurations
- Dimensions: 40 x 12 x 1.6mm with 3m total length
- Silver finish offers clean and professional visual appeal
- Engineered with uniform quality for reliable performance
- Designed for simple integration into various construction frameworks
- Corrosion resistant finish minimises upkeep and preserves strength
- Precise fabrication meets tight tolerances for secure joinery

Product Code: 6006

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 40

Product Width (mm) 12

Product Length (mm) 3000
