

Description

Metal Mate 40 x 25 x 1.6mm x 3m Aluminium Unequal Angle is an L-shaped component made from aluminium with a silver finish designed for accurate assembly and support tasks. It delivers consistent dimensions and a stable structure that benefits trade professionals in various technical applications, ensuring reliable fittings and efficient structural support for custom installations and maintenance projects. The product's practical design focuses on straightforward construction and dependable performance.

Features

- L-shaped unequal angle profile for reliable mounting and framing
- Constructed from aluminium for lightweight yet robust build
- Silver finish adds a sleek, professional appearance
- Precise machining meets tight tolerances for accurate fit
- Engineered for durability and dependable performance
- Standard dimensions: 40 x 25 x 1.6mm x 3m
- Precision engineering ensures accurate fit and secure fixation
- Quality joining surfaces deliver strong, secure structural connections

Product Code: 6007

General

Product Type Unequal Angles
