

Description

Metal Mate 40 x 20 x 1.6mm x 3m Aluminium Unequal Angle is a precision L-shaped component manufactured from aluminium designed to offer strength and stability in construction and fabrication projects. Its dimensions allow for accurate integration in structural frameworks and custom installations, while the silver finish provides a clear, professional appearance. This product is a practical solution for trade professionals requiring reliable performance and straightforward assembly in technical applications.

Features

- Constructed from robust aluminium for consistent performance
- L shaped design offers precise unequal angle configuration
- Available in 40 x 20 x 1.6mm and 3m length
- Silver finish enhances product appearance
- Precise machining ensures tight tolerances
- Engineered for high load bearing support
- Corrosion resistant aluminium extends product longevity
- Uniform cross section supports reliable structural assemblies

Product Code: 6009

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 40

Product Width (mm) 20

Product Length (mm) 3000
