

Description

Metal Mate 25 x 12 x 1.6mm x 3m Black Aluminium Unequal Angle is a robust L-shaped structural component made from high-quality aluminium and finished in black. It is engineered for precise applications requiring strength and stability in various technical settings. Its design optimises form and function, making it an essential resource for professionals involved in fabrication and construction layouts, offering dependable performance and ease of integration into complex design systems.

Features

- Rigid L-shaped design engineered for dependable load-bearing support
- Available in 25x12x1.6mm cross-section and 3 metre length
- Durable aluminium construction ensures strength and longevity
- Black finish provides a consistent professional appearance
- Unequal angle offers precise structural orientations
- Lightweight profile aids efficient installation and handling
- Engineered for accuracy in complex fabrication projects
- Trusted Metal Mate quality guarantees reliable performance in service

Product Code: 6011

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Black

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 25

Product Width (mm) 12

Product Length (mm) 3000
