

Description

Metal Mate 40 x 25 x 1.6mm x 3m Black Aluminium Unequal Angle is crafted from quality aluminium with an L-shaped design, offering precise structural support for various applications. Its robust construction ensures dependable strength and accurate stability for professionals in industrial and trade sectors. The component's engineered dimensions and versatile shape enable straightforward integration into a range of configurations, promoting efficient assembly and reliability in technical projects requiring consistent performance and durability.

Features

- Made from lightweight, durable aluminium
- Precision engineered L-shaped unequal angle design
- Standard dimensions: 40 x 25 x 1.6mm over 3m length
- Solid black finish provides professional appearance
- Engineered for precise, reliable angles during construction
- Uniform profile enhances ease of installation
- Adaptable for construction, repair and custom installations
- Engineered for accurate load distribution in various setups

Product Code: 6027

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Black

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 40

Product Width (mm) 25

Product Length (mm) 3000
