

Description

Metal Mate 20 x 12 x 1.4mm x 2.4m Aluminium Unequal Angle is a precisely engineered L-shaped component crafted from aluminium in a silver finish. It is designed to deliver consistent accuracy and structural support for framing and precise assemblies, making it valuable to industrial and trade professionals. The product's detailed machining and robust construction provide dependable alignment and load distribution, supporting efficient fabrication and construction tasks in various applications.

Features

- Robust aluminium construction ensures durable, dependable performance
- L shaped design provides strength and design versatility
- Precisely dimensioned profile for accurate fit and function
- Silver finish presents smooth surface and corrosion resistance
- 20 x 12mm profile delivers high performance and flexibility
- 1.4mm thickness supports robust load-bearing capacity
- 2.4m length enables versatile structural applications
- Engineered for precise assembly and efficient installation

Product Code: 6050

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.4

Product Height (mm) 20

Product Width (mm) 12

Product Length (mm) 2400
