

Description

Metal Mate 25 x 20 x 1.6mm x 2.4m Aluminium Unequal Angle is a precise L-shaped structural component crafted from silver aluminium. It is engineered to provide reliable support and alignment in fabrication and assembly applications among trade professionals. The product's standardised dimensions and robust construction ensure ease of integration into various frameworks while enhancing overall stability. Its technical design contributes to efficient assembly, delivering practical value and consistency in performance for demanding projects.

Features

- Made from aluminium for high strength and durability
- L-shaped unequal angle offers reliable load distribution
- Silver finish provides a clean professional appearance
- Dimensions: 25x20mm, 1.6mm wall, 2.4m length
- Unequal legs facilitate custom fittings and assembly
- High-precision machining ensures accurate component dimensions
- Quality Metal Mate product delivers reliable performance
- Simple integration into existing frameworks and components

Product Code: 6051

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 25

Product Width (mm) 20

Product Length (mm) 2400
