

Description

Metal Mate 32 x 20 x 1.4mm x 2.4m Aluminium Unequal Angle is designed with a precise L-shaped geometry, offering robust aluminium construction in a sleek silver finish. Its engineered dimensions provide reliable support for various technical applications encountered by trade professionals. The durable build and straightforward installation promote consistent structural alignment, delivering clear benefits in projects that require accuracy and dependable performance.

Features

- Durable aluminium alloy construction with a silver finish
- Unequal angle design for customised applications
- L-shaped profile enables versatile structural support
- Precision manufacturing ensures consistent quality dimensions
- Stable load-bearing performance through engineered design
- Enhanced resistance to wear and corrosion
- Versatile dimensions ideal for varied structural frameworks
- Compact design simplifies integration in existing structures

Product Code: 6053

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.4

Product Height (mm) 32

Product Width (mm) 20

Product Length (mm) 2400
