

Description

Metal Mate 40 x 25 x 1.6mm x 2.4m Aluminium Unequal Angle is engineered from aluminium to provide a precise L-shaped construct suitable for forming stable joints in various assembly tasks. Its unequal angle design offers straightforward alignment and strength for accurate fabrication work. The silver finish ensures a uniform appearance on drafted structures, supporting professionals in trade with a reliable component that facilitates efficient, accurate installations.

Features

- L-shaped profile enhances versatile connection design
- Aluminium construction provides durability and lightweight strength
- Silver finish offers sleek appearance with modern practicality
- Unequal angle design enables flexible mounting and support
- Precision engineered components ensure consistent structural integrity
- Efficient design supports easy installation in metalwork projects
- Factory-tested material quality delivers practical performance benefits
- Standardised dimensions meet varied project requirements

Product Code: 6057

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 40

Product Width (mm) 25

Product Length (mm) 2400
