

Description

Metal Mate 25 x 20 x 1.6mm x 1m Aluminium Unequal Angle is engineered for accurate structural alignment and and precise support needs. The L-shaped design and silver finish enhance compatibility with diverse assembly configurations. Its robust aluminium composition offers strength and durability for professionals in trade settings, ensuring reliable performance during mounting and framing installations. The product facilitates efficient construction and integration with other components, contributing to improved overall system stability.

Features

- Precision-engineered aluminium profile with 25 x 20 mm dimensions
- 1.6mm thickness delivers secure structural support
- L-shaped design provides stable joint connections
- Silver finish offers a modern sleek appearance
- Unequal leg dimensions accommodate varied design requirements
- Metal Mate quality ensures dependable performance every time
- Lightweight structure simplifies transportation and on-site installation
- Engineered for robust load-bearing performance over time

Product Code: 6251

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.6

Product Height (mm) 25

Product Width (mm) 20

Product Length (mm) 1000
