

Description

Metal Mate 32 x 20 x 1.4mm x 1m Silver Aluminium Unequal Angle is a precision-engineered aluminium L-shaped component designed for exact structural alignment and effective support in a variety of applications. It offers consistent performance in assembling robust frameworks and varied assemblies, providing trade professionals with a reliable material that enhances project accuracy and efficiency. Its smooth silver finish contributes to visibility and a durable, high-quality appearance.

Features

- Manufactured aluminium ensures light yet durable construction
- Precision engineered L shaped unequal angle profile design
- Silver finish offers enhanced corrosion resistance and clean appearance
- Ideal dimensions support versatile structural reinforcement applications
- Uniform quality promises reliable performance in diverse projects
- Engineered material resists wear while maintaining precise tolerances
- Suitable for metal fabrication and precise structural assemblies
- Consistent profile dimensions simplify integration into systems

Product Code: 6254

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm) 1.4

Product Height (mm) 32

Product Width (mm) 20

Product Length (mm) 1000
