

Description

Metal Mate 32 x 25 x 3.0mm x 1m Silver Aluminium Unequal Angle is constructed from aluminium with an L-Shaped design that provides precise right-angle joints for structural assemblies. Its defined dimensions facilitate the accurate positioning of components during fabrication and repair tasks, making it a practical solution. The silver finish and consistent build offer industrial and trade professionals dependable support for aligning frames and securing connections in various applications.

Features

- Constructed from high-quality aluminium for long-term durability
- L-shaped unequal angles provide stability and ease of assembly
- Silver finish adds a professional appearance in visible installations
- Precision manufacturing ensures consistent results in demanding applications
- Lightweight aluminium reduces handling effort and installation time
- Unequal angles offer versatile connection options for varied configurations
- Robust profile ensures strength and resistance to environmental exposure
- Metal Mate product range features precise dimensions for technical projects

Product Code: 6255

General

Product Type Unequal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium

Dimensions

Product Thickness (mm)	3
Product Height (mm)	32
Product Width (mm)	25
Product Length (mm)	1000
