

Description

Metal Mate 25 x 25 x 1.4mm x 3m Silver Aluminium Equal Angle is a precision engineered L-shaped profile designed for practical structural applications. It is crafted from silver aluminium that provides durability and reliable performance. Its equal angle design offers exact dimensions to support construction requirements, ensuring consistent integration into frameworks and supporting reliable assembly for trade professionals.

Features

- L-shaped equal angle profile in silver aluminium
- Precision 25x25mm cross-section with 1.4mm thickness
- Designed for robust structural support
- 3 metre long section for versatile applications
- Consistent finish ensures easy splicing and fittings
- Reliable performance in diverse construction projects
- Manufactured to exact tolerances for precise assembly
- Metal Mate quality delivers dependable engineering solutions

Product Code: 6504

General

Product Type                      Equal Angles

Appearance

Product Shape                    L-Shaped

Product Colour                  Silver

Construction

Product Material 1              Aluminium

Dimensions

Product Thickness (mm)                      1.4

Product Height (mm)                              25

Product Width (mm)                              25

Product Length (mm)                            3000
