

Description

Metal Mate 40 x 40 x 1.4mm x 3m Aluminium Equal Angle is a high-quality L-shaped component made from aluminium with a silver finish. It is designed for precise structural applications that demand reliable, consistent performance and ease of installation. The equal angle offers robust support and is particularly suited for fabrication projects where accuracy and durability are essential, providing trade professionals with a dependable solution for various assembly and construction tasks.

Features

- Precision L-shaped design for accurate structural applications
- Robust aluminium construction enhances durability and performance
- Silver finish provides corrosion resistance and a clean look
- 40 x 40 mm profile supports versatile design integration
- 1.4mm wall thickness offers strength with minimal weight
- 3m length supports extensive or custom installation needs
- Uniform manufacturing delivers reliable structural support
- Metal Mate quality underpins dependable performance in varied applications

Product Code: 6506

General

Product Type Equal Angles

Appearance

Product Shape L-Shaped

Product Colour Silver

Construction

Product Material 1 Aluminium
